Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/625,918	Applicant(s) WEI ET AL.	
	Examiner Edward M. Johnson	Art Unit 1754	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1-8 and 10-18 in the reply filed on 2/16/07 is acknowledged.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-7 and 9-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suzuki et al. US 6,217,831.

Regarding claims 1 and 10, Suzuki '831 discloses method of making an exhaust purifying catalyst comprising applying and calcining a first and second catalyst to a first and second portion of the substrate (abstract and columns 5-6).

Suzuki fails to disclose applying both and then calcining the substrate.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to apply both the first and second catalysts and then calcine together because Suzuki

Art Unit: 1754

discloses arranging the zones together without space in between (Fig. 1 and column 6, lines 11-16), which would suggest to an ordinarily skilled artisan either a single substrate that may be calcined together or separately and subsequently arranged.

Regarding claims 2-7 and 11-18, Suzuki discloses an arrangement of Pt followed by Ba followed by Pt/Rh (column 5, lines 5-18), wherein the first catalyst comprises 2.0 Pt per liter of support, the second catalyst comprises 0.3 mol per liter of support, and the third catalyst comprises 2.0 grams with respect to 1 liter of support. And it would have been obvious to one of ordinary skill to optimize the concentrations of each through routine experimentation.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Suga et al. US 6,729,125 discloses a method for making an exhaust purifying system comprising an upstream and downstream side catalyst (see abstract, Figure, and Examples).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward M. Johnson whose telephone number is 571-272-1352. The examiner can normally be reached on M-F 9:30-6:00.
